

What Women of All Saints Are Saying About Their Emmaus Experience

The journey this weekend was a 1st for me and really helped me to dig deeper into my relationship with the Lord.

It gave me peace, confidence & direction.

I found I need to take time to be with other women of faith, in a serene place to visit with God. I have resources & confidence to take away from this weekend as support.

What a treat it was to have the opportunity to be served instead of serving.

This retreat has once again opened my eyes toward my friend Jesus and has made Him alive in my heart. I will always treasure this gift you have renewed in me.

This was wonderful & something I really needed!
I have received so many blessings & ideas from this weekend.

I came thinking I knew where I should be going & my path was totally changed this weekend.

Wonderful!! I left brimming with God's love,
hoping to share it each day.
